

**CANNABIS
REQUIRES POWER.
A LOT OF IT.**

MSC ELECTRICAL SERVICES

Industrial electrical installation, repair, and maintenance from the most reliable and time conscious electrical service provider.

MSC Electrical crews consist of some of the industry's best electricians. We follow a strict safety protocol ensuring that the job will be done correctly and safely. Our certified master electricians are experienced in LED and HPS grow light installation, connect and disconnect of dehumidification units, ventilation systems, air conditioning units, irrigation controllers, generators, and all electrified machinery. We can also install your network and phone cables.

Our team will work with you and your utility provider to see if you qualify for energy savings rebates. We accomplish this while still providing competitive rates and top-quality workmanship.

**Call us for a *FREE QUOTE* and
don't forget to ask about our
*24/7 EMERGENCY REPAIR SERVICE.***
